

Sibenik riviera

One of the most attractive and interesting tourist regions in Croatia is the Sibenik Riviera which is located in the northern part of Dalmatia.

Its inland is encircled by the Dinara Mountain. It stretches along the coast from Pirovac on the west to Razanj on the south and contains more than 200 smaller and bigger islands as well as reefs.

Crystal clear water, beaches, islands, vineyards, authentic fishing villages and the ruins of medieval towns surrounded by walls are only a few of many beauties of the Sibenik Riviera. That which makes it very special are the two pearls of nature – national park Kornati with over 89 beautiful islands and reefs and national park Krka in which the river Krka fights its way through a tight canyon for 72km, trying to find its way to the Adriatic Sea, leaving magical cascades, waterfalls and lakes behind.

Sibenik is a cultural and administrative center of the Sibenik Riviera, as well as a neighbor to attractive locations such as Vodice, Rogoznica, Primosten, Zaton, Pirovac, Tisno, Tribunj, Srma, Brodarica, Zaboric, Grebastica, Sparadic.

Islands of Murter, Zlarin, Zirje, Kaprije, Prvic and Kornati exude tranquility and intact nature enriched by Mediterranean scents.

Sibenik is a town which successfully connects the famous past with the gift of natural beauties. The nature has granted the richness of the islands bathed in the blueness of the sea and fascinating scenery of the Krka national park to the town the name of which was used by the kings.

Sibenik is the town with the largest number of music organs and stairways in Croatia. Besides the remarkable historical monuments, Sibenik has a fantastic catering offer, malls, movie complexes, four forts the most visited of which are the St. Mihovil fort and one of the best sea forts on the Mediterranean, St. Nikola fort.
